

TRAVERSCRANE & SAFE LIFTING

Description:

Performing heavy lifting with travers or telfer places great demands on knowledge and judgment. Therefore, anyone using lifting equipment must have documented theoretical and practical knowledge of how the work is to be performed. The course is aimed at all those who work with travers or telfer as well as to supervisors and safety officers who plan the work on lifting devices. The education complies with the Swedish Agency for Safety and Health at Work, as well as applicable standards and directives.

Course content:

- Planning and risk assessment
- Operation and driving technique
- Load coupling and lifting gear
- Lifting angles and lifting tables
- Inspection and inspection
- Laws, regulations and standards
- Practical exercises
- Theoretical and practical exam

Previous knowledge:

- 18 years
- Good understanding in English language

Course length: 1 day.

Price: 2395: - / participant (ex VAT).
Material, lunch and coffee are included.
(Applies to training at Lipac's premises.)
